PROJECTS

WebFlix Entertainment Web Application | View (Live link)
AlmaBetter Verified Project ⬈

- It is a **dynamic** and **responsive** website which displays latest movies and TV series fetched from **TMDB API**, allows user to **search** trending movies and tv series and features **login/register** and **bookmarking** functionalities and **personalisation**.
- Implements **JWT tokens** to ensure secure login and registration processes.
- Utilizes a **RESTful API** to handle **CRUD** operation on **MongoDb** database stored in cloud.
- React.js and Tailwind CSS were used to create responsive and user friendly UI.
- Skills - Frontend (**React.js, Tailwind CSS**), Backend (**Node.js, Express.js, MongoDB**), **RESTful API, JWT Token Authentication** .

Get YouTube Subscribers API (Backend) | View (Live link)
AlmaBetter Verified Project ⬈

- Developed a robust backend **API for managing YouTube subscriber data**, enabling efficient retrieval and management of subscriber information.
- Implemented **RESTful API** endpoints to handle **CRUD** operations on subscriber data stored in a **MongoDB** database.
- Utilized **Node.js** and **Express.js** to create a scalable server architecture, ensuring high performance and reliability.
- Implemented **error handling** and wrote comprehensive **API documentation** using **POSTMAN**
- Deployed the api on **cloud platform** RENDER.
- Skills: Node.js, Express.js, MongoDB, RESTful API design, Data modelling, Error handling, API documentation, Cloud deployment

SmartQuiz | View (Live link)
AlmaBetter Verified Project ⬈

- SmartQuiz is a project use to create quizzes, store them in **local storage** and solve. It is interactive web site that simplifies the work of creating quizzes online.
- Implements a responsive user interface using **React.js** and **Material-UI,** ensuring optimal usability and accessibility across various devices and screen sizes.
- Utilizes React **hooks** such as **useState** and **useEffect** to manage component state and side effects, enhancing the efficiency and maintainability of the codebase.
- Integrates **Redux** for state management, providing a centralized store for quiz data and facilitating predictable state updates across the application.
- Skills – React.js,Redux, Material-UI, Responsive UI.

EDUCATION

- **B. Tech Mechanical Engineering** ⬈
  Pandit Deendayal Energy University, Gandhinagar

- **GATE qualified** ⬈

RELEVANT COURSEWORK

Full Stack Web Developement Certification ⬈
JavaScript,React.js, CSS and its Frameworks, Responsive UI, Express.js, Node.js, MongoDB, SDLC, GIT, Delployment.

Data Structures & Algorithms Almabetter ⬈
Data structures, Programming, Javascript

SKILLS

Responsive UI   Backend Development

API Design and Intergration   Version Control

Cloud Deployment   CI/CD   DBMS

Problem Solving

TECH STACK

Languages
JavaScript, Core Java, C++, Basic Python

Frontend development
 • HTML • CSS • React.js • JavaScript • Tailwind CSS • Material-UI • Redux.

Backend development
• Node.js • Express.js • MongoDB • Mongoose • REST API.

Tools
• VS Code • Postman • MongoDB Compass • Git Hub • ChatGpt

ACTIVITIES

o Solved 100+ DSA Problems.
